

TO GROW LONG, STRAIGHT HAIR

You Need a Real Scalp Food.

There are so many so-called hair growers on the market, a large number of which are nothing more than perfumed grease, it is no wonder people get discouraged and lose faith in all hair tonics. In deciding what to use on your scalp be sure and get a remedy of proven merit. Seeb's Quinase is a highly medicated pomade that has stood the test of time. It is a real scalp food; it stimulates and nourishes the roots of the hair, causing a natural growth of long hair. Quinase is the invention of an expert chemist and is made under the supervision of an experienced registered pharmacist. It makes the hair soft and smooth and easy to put up in the style desired.

To get best results from the use of Quinase it is necessary to shampoo the scalp about every two weeks with Seeb's Quinase. Quinase is made entirely out of pure vegetable oils, principally coconut oil, and is a thorough cleanser. Quinase lathers very freely. It relieves the scalp of dandruff and imparts a refreshing feeling to the scalp unequalled by any other shampoo.

Do not accept any substitute, but insist on getting Seeb's Quinase and Seeb's Quinase, asking for them by the full name. The price is 25 cents each. If your druggist or dealer does not stock these two articles, ask him to obtain them for you from his wholesaler or send us the price and we will mail them to you. Write to Seeb Drug Co., 75 East 110th Street, New York City, for a sample of Quinase, mentioning the name of this paper.—Adv.

WANTED AT ONCE—

Three printers—steady work to the right man. Also three good men in our bindery department. Address all communication to the printing department, National Baptist Publishing Board, 523 Second Avenue North, Nashville, Tenn.

UNITED STATES DEPARTMENT OF LABOR.

A gang of Negro riveters working at Sparrows Point, Md., in the plant of the Bethlehem Steel Corporation broke the world's record for driving rivets. One of the gang, Charles Knight, drove 4,875 three-quarter inch rivets in a nine-hour day. The previous highest record was 4,442 made by a workman in a Scottish shipyard. This is the way the Negro is demonstrating his patriotism at home while his brothers in black in the army are showing it in France. Mr. Knight is a highly respectable and industrious citizen of Baltimore, a native of Virginia.

Telegrams announcing the new record were sent to Mr. Charles M. Schwab, Director-General for the Fleet Corporation and other officials connected with shipbuilding. If a bridge of ships will enable our soldiers to go over, to be fed and our allies to have supplies, the Negro will have a large share in building those ships. Mr. Knight is one of our thousands of Negro shipworkers. At Newport News Yards alone there are about 8,000 employed.

Commenting on this performance of work the Washington Times of May 18 said: Not many months ago German propagandists were spreading the story that the colored people of the South, even as far North as this city, were preparing to revolt against the Government and do what they could to hinder the work of the war.

Day before yesterday there was a revolution, but it was not the kind the Germans planned. Charles Knight, colored, and seven colored helpers turned upside down every record that had ever been made for driving rivets into the hulls of ships. That is the kind of a revolution the colored men of this country are carrying on.

That is the kind of a revolution they may be depended on to carry on to the end of the war.

Foreman Knight set an excellent example of efficiency to every citizen of the country, whether he be black or white.

(Signed) "George E. Haynes,"
Director of Negro Economics.

WITH THE COLORS.

Camp Meade, Md., May 19, 1918. To the Editor of Nashville Globe, Nashville, Tenn.

Dear Sir—I will ask for a small space in the paper of which I have been so much interested in in past years. The paper which at dark hours have brought consolation and gladness to my heart when I look over the pages and saw the words of the noble sons of Ham, and now while in service of this great United States of ours, marching each day of life under its banner. I think and my mind runs back to my old home in Tennessee, and each day I yearn to return to the old sunny south, where the cotton blossoms grow. Of course it is a pleasure to be a "Sambo" but there is no place like home, although we as Tennessee boys were drafted, but there are no volunteers more loyal to the stars and stripes than we and we mean to do our bit. Our state's flag and the great seal of agriculture and commerce must not drag in the dust and when we think of home and of sweet old Tennessee we come to this conclusion: "Be still and heart and cease repining, behind the dark clouds the sun is still shining, thy fate is the common fate of all into each life some rain must fall. Some days must be dark and dreary."

We are well clothed and fed here and a nice comfortable place to sleep with a nice Y. M. C. A. with all its modern conveniences and we are going to make it worth while and should we not see the rest of the boys meet us in France.

Yours respectfully,
Private Shelah T. Dowell,
4th Co., 154 Depot Brigade.

If you find it absolutely impossible to attend the Congress, or to have your Sunday School represented by a messenger, then do the next best thing—fill out the Congress Enrollment Blank, and mail it to the Congress Secretary, Henry Allen Boyd, Nashville, Tenn.

MOULDING.

A sculptor worked swiftly in a piece of clay. His mind was picturing a future day. When a statue grand would a home adorn. He moulded while the clay was in a plastic form.

Women, you are master sculptors. Mould while the clay is in a plastic state. While the tiny soul is yet unborn. The clay is in its most plastic form. Select as a model a leader noble and true.

Then you can mould a leader, too. Let brave good deeds sink deep in your soul. While the clay is most plastic, mould.

Disturb not the sculptor at her noble task. She is moulding for the future, not the past. Forget not, O sculptor, the power you hold. While the clay is most plastic, mould.

In the world crisis of today lies our fate. Our race will need leaders noble and great. The men are proving themselves noble and true. But our future safety, O master sculptor, lies in you.

ESTHER L. FIELDS.

Do you want to know how to lay hands on the boys of your community and bring them into your school? If so, COME TO THE CONGRESS AND LET GENERAL CRAWFORD TELL YOU HOW.

NEGRO A WORLD-BEATER AS A RIVETER.

Drives 4,875 Rivets on One Day at Shipbuilding Plant—Race Men Can Do Great Work Under Proper Encouragement.

Baltimore, Md., May 20.—The new record for driving rivets in a steamship is 4,875 in one day and it is held by a colored man. This beats the previous high record of 4,442 by the goodly margin of 443. The form is one of which the colored people everywhere may well be proud. It proves that the Negro can do great work efficiently and faithfully if given the proper incentive—just pay and equitable working conditions. Mr.

er high record was established in a shipyard in Scotland some years ago. The new record was made a few days ago at the shipbuilding plant of the Bethlehem Steel Corporation at Sparrow Point, Md., and the hero of the hour is Charles Knight, a native of Virginia, but now a resident of Baltimore, and he is highly respected by both races. His achievement Knight drove 4,875 three-quarter inch rivets, two and five-eighths inches long, in nine hours or one working day.

BIRTH OF A NATION BARRED FROM LYNN, MASS.

Through Local Equal Rights League Chairman, Mayor and Council of Big Massachusetts City Withdraw Permission to Dixon's Race-Hatred Play Advertised to Appear.

(Special.)

Lynn, Mass., April 30, 1918.—As we go to press the colored citizens are very much excited over the announcement of the Birth of the Nation at the Comique Theatre, May 6. Rev. Dr. W. A. Lynch, chairman of the Executive of the Equal Rights League in connection with Messrs. Jas. Ogden, Mr. Brown, Mrs. Murray and others have filed a protest and has been granted a hearing before the Mayor and board of common council. There is also a meeting to be held at the Mailey Street A. M. E. Church to devise other plans to crush out this breeder of racial prejudice.

Rev. W. A. Lynch, Correspondent.

VICTORY WON.

Lynn, Mass., May 21, 1918.

Mr. Wm. M. Trotter, Secretary. Dear Sir—I am writing you the pleasure of informing you that the cause of Equal Rights of the race, we have succeeded in having the license for the appearance of the Birth of the Nation revoked. I appeared before the Mayor and Board of Common Council and protested. We have won a great victory.

W. A. LYNCH.

FIELD ARTILLERY SCHOOL OPENED AT CAMP MEADE.

Washington, D. C., May 20.—A school for the instruction of colored men in field artillery has been established at this point. The 35th Battalion of Field Artillery, already here, has been supplemented by groups from Camp Dix, Fort Sill and other places, and the course is designed to cover the next several months. Col. C. E. Cole is in command of the training instructors and the student-soldiers. In keeping with the policy of the War Department to give equal facilities to all citizens in connection with the training work of the army, opportunities are being afforded colored men to enter the coast artillery service. Due announcement will be made as to how this service can be brought into the reach of the young colored men desirous of taking advantage of the openings presented.

The 1918 Sunday School Congress will be the greatest that has ever been held. Don't Miss It.

THE NEGRO AND THE WAR.

Gen. Pershing's report of the heroic fight of two Negro soldiers who, though wounded, withstood a raiding party of twenty Germans and saved their comrades from capture is no surprise to anybody who knows the American Negro as a fighter.

Of the Negro volunteers from New York, who have been in France since January a correspondent with the American Army says:

"They are over here, their typical Negro selves. The standard of intelligence in the unit is extremely high, and no illiterate is noticeable. Many of the men have become fluent French talkers and I have heard animated conversations between our darkies and the Senegalese who changed to be passing."

"The American Negro lads get along famously with both white and black Frenchmen. In their dealings with the feminine population they are punctiliously polite and not a single complaint has been lodged against them in this respect. Naturally they are delighted at the complete lack of racial prejudice they have found in France and some of them have declared to me their intention of remaining here after the war. Their pride in their unit speaks well for a continuance of the high morale they have manifested so far."

There is no color line in the war against the black flag of the Prussian skull-and-bones. By the way it was noticed that no participants in Louisiana's great Red Cross parade received from the spectators more applause than the Negroes.—Courier Journal.

CLOSING EXERCISES OF ROCK HILL SCHOOL.

On last Friday evening at 8:30 o'clock the pupils of the Rock Hill School, the leading colored school of Davidson County, rendered a beautiful cantata entitled, "A Dream of Fairland," one of Charles H. Gabriel's compositions. The cantata consisted of choruses, songs, recitations, marches, dialogues and tableaux vivants. Those taking the leading parts were, Misses Charity Drake, Etta Hockett, Addie Mae Douglass, Weda McDowell, Carrie Cartwright, Tabitha Hockett, Masters Leslie Polk, Charlie Galloway, Andrew Douglas, Thomas Robertson and Joseph Howlett. The different numbers were well rendered and met with great applause. One of the best numbers was "The Spirit's Dance" by ten small girls led by little Miss Carrie Cartwright. The stage was artistically arranged with beautiful scenery of Fairland. In the background could be seen towers, bridges, butterflies and bees as well as beautiful fairs. Mrs. Elzora Berry Barton is the efficient principal of this school, ably assisted by Miss Amanda B. Perkins. These teachers have won an enviable reputation by their accomplishments in the school room. Just before the beginning of the cantata, Miss Lucile Whitfield sang in a very pleasing manner, "The Sunshine of your Sun." The house was filled to its utmost capacity, a large portion of the audience being composed of friends from the city.

300 COLORED MEN IN TECHNICAL TRAINING AT HOWARD UNIVERSITY.

Inducted into Army Service With Brilliant Parade and Impressive Ceremonies—Instruction Offered in Radio Engineering, Wood-Working, Electricity and Auto-Mechanics—Review by Provost Marshal General Crowder and Other High Officials—Dr. Newman's Sound Advice—Plans for the Future.

Washington, D. C., May 20.—A new angle to the participation of the Negro in the national army was shown last Wednesday when 300 promising young colored men were inducted into the military service of the United States amid much acclaim and with impressive ceremonies. Following a parade through the main streets of the city, with the registrants as the central figures, they entered the new training camp at Howard University to receive special instruction during the summer months in radio engineering, construction and operating in automobile repair work. In electricity, wood-working and engineering in general and in a number of mechanical and technical branches. When the course of training is completed, they are to be assigned to special duty, either with colored units in training in this country or with the American forces in France.

Fine Parade and Review by Prominent Officials.

The procession which preceded the induction ceremonies at Howard University was made up of about thirty members of the War Department, the full corps of the Dunbar High School Cadets, members of the District and local draft boards. Acting Adjutant General D. J. Donovan, the Red Cross auxiliaries of the high schools and of Howard University, and many colored citizens of the District on foot and in automobiles. All of the thousands through which the procession passed were crowded with interested spectators, many of whom carried flags of the different allies, and the colored schools were granted permission to allow their children to see the parade. They made an attractive frame for the 300 marchers and their cheers in childish jubilation were inspiring to the last degree. Many of the young people were dressed in costumes characteristic of the war and practically all of them carried flags. The procession was reviewed at 7th and E streets from the south steps of the Old General Land Office building by Provost Marshal General E. H. Crowder and officers of his staff. The men were called into the service under a call from the War Department for colored selectives for special training along mechanical and engineering lines, growing out of the general recommendation of Mr. Emmett J. Scott that the colored men called to the colors be included in the educational system planned for the national army. It is understood that 115 men volunteered for the special training, the remainder being drafted from the registration cards and the questionnaire submitted last winter. The personnel of the "300" as a whole represents a fair average of intelligence. Among them were several lawyers, doctors and teachers. The men were dressed in citizens' clothing. The uniforms will be ready in about two weeks.

Dr. Newman Talks of Value of Trained Mind in a Sound Body.

At Howard University, Dr. S. N. Newman, president of the institution, delivered a very practical address to the new student-soldiers. He called attention to the fact that they entered in their ranks the best element of young colored manhood. Not one of the 300, he said, could have been included in the number unless he possessed at least the qualification of a trained mind and a perfect body. The honor of having been chosen as one of such a number of colored men, Dr. Newman said, was one that would be deeply appreciated by the entire race of which these men are members.

Acting Adjutant General Donovan and Mrs. Coralie Franklin Cook, of the Board of Education, spoke briefly along encouraging lines. The senior class of girls from Dunbar High School, dressed in Red Cross attire, marched through the campus and were grouped picturesquely during the exercises.

Howard University is one of the several institutions where colored men will be given this special training for the next few months. The government has contracted to provide food and lodging on the campus grounds and will pay the men the regular army compensation for private soldiers.

PRESIDENT JONES RENEWS CALL.

The Meeting of the Executive Board Which Was First Called to be Held in Alexandria, La., With the Sunday School Congress Will not Change.

Vicksburg, Miss.—Owing to many persistent rumors relative to the change of the meeting place of the Executive Committee, President E. P. Jones of the National Baptist Convention, was called on today and renewed or reaffirmed his first call, wherein he asked the Executive Committee of his convention to meet in Alexandria, La., at noon Wednesday, June 12th, at which time the Sunday School Congress will be in session.

I have always endeavored to carry out the wishes of the convention," declared President Jones, "but after the Memphis Conference the impression got out that the Executive Committee should be called at some other time, so I took it up with the members of the committee. As a result I was cleared with requests to allow the first call to remain and according to the request of the brethren, the meeting will remain as first stated."

President Jones seems much encouraged over the outlook of a great gathering both at Alexandria, La., and at Little Rock, Ark., next September. The call is as follows:

"TO THE MEMBERS OF THE EXECUTIVE BOARD OF THE NATIONAL BAPTIST CONVENTION: This is to certify that on Wednesday, June 12th, at 12 m., at Alexandria, La., the Executive Board of the National Baptist Convention will convene with the Union Baptist Church, pastored by Rev. G. W. Davis. It is suggested to the members of our Sunday School Congress will be in session at the same time, and the members of the Committee will

be cordially and heartily welcomed to attend the session. I earnestly insist that this meeting of the Congress engage the attention of our entire ministry to the end that the twenty thousand Sunday schools of this country may be represented. Inspiration and vision must follow where perfect preparation has been made to uplift and enlighten. The session of the Executive Board, aside from arranging a program for the convention which convenes at Little Rock, Ark., Sept. 4, 1918, must consider vital questions now discussed throughout the country.

This Board is composed of the officers of the National Baptist Convention and the chairmen and corresponding secretaries as well as the vice presidents of the National Convention, and each member is urged to be present. In the midst of the darkest hours of the most cruel war known to history, President Wilson requested that all assemble at their various churches on May 30th, and there seek assistance through prayer for Divine guidance, that righteousness and liberty may prevail, and I heartily endorse and urge our pastors to see that this order is obeyed, and at the same time, remember that an "Abiding Peace" is to be coveted in our own ranks, and that God's assistance must be implored. "Assuring you of our earnest hope to meet you at Alexandria, I am, "Yours to serve," "E. P. JONES, President," "C. P. MADISON, Secretary."

HEROIC FIGHT BY TWO NEGRO SOLDIERS TOLD.

From the Tennessee and American of May 21st; we clip the news item appearing below.

"Section B. Reports in hand show a notable instance of bravery and devotion shown by two soldiers of an American colored regiment operating in a French section. Before daylight on May 15 Private Henry Roberts and Private Robert Roberts, while on sentry duty at some distance from one another, were attacked by a German raiding party estimated at twenty men, who advanced in two groups, attacking at once from flank and rear.

"Both men fought bravely in hand-to-hand encounters, one resorting to the use of a bolo knife after his rifle jammed and further fighting with bayonet and butt became impossible. There is evidence that at least one and probably a second German was severely shot. A third is known to have been shot.

"Attention is drawn to the fact that the two colored sentries were first attacked and continued fighting after receiving wounds, and despite the use of grenades by a superior force. They should be given credit for preventing, by their bravery, the capture of any of our men. Three of our men were wounded, two by grenades. All are recovering, and the wounds in two cases are slight."

The above is a description of only a sample of the deeds of our brave heroic boys at the front. It is more than we expected from them. They are expected to do their whole duty in standing up for the honor of "Old Glory" and they are going to do.

The Negro National Newspaper Press Association has employed a Negro War Correspondent but it seems that he is a "statesman without a job." He is "Somewhere in France" but the newspapers have not been able to tell just where. Whether it is the lack of authority or the strict censorship we can not tell but we do know that we have not been able to hear from him. It may be, however, that this fine Italian hand was felt in the water and he through the War Correspondent allowed us to hear something of Private Johnson and Roberts going over the top.

THREE CHEERS FOR THE RED, WHITE AND BLUE!
We shall keep our ears to the ground and our eyes fixed on the War Correspondent with a hope that he will let us hear more of the bravery of our men "Somewhere in France."

Miss Ilma DuPont Recovering.

Friends and patrons of the school will rejoice to know this Miss Ilma DuPont, our esteemed and efficient teacher of Household Science, after an absence of six weeks in the Millie E. H. Hospital is now on the road to recovery. Miss DuPont for a while was very near the vortex of eternity, but a recent operation seemed to have been the best thing for her and now her friends can rejoice that she will soon be with them again. Her place at Pearl is now filled temporarily by Miss Delia Warren, who for six years was teacher of Domestic Science in Swift Memorial College. Miss J. L. Childress, who went to Chicago to visit her father, was taken with a grippe while there and has not returned. Her place is now filled by Miss Clara Johnson.
